

Sirs:

As a Licensed Amatuer radio operator, Technician, USAF Aux. Radio Operator since 1957, I have dealt in emergancy communications over a long time span. I also enjoy listening to Voice of America, BBC and other Government Short Wave radio frequencies.

By allowing the Power Companies to engage in obliterating the H.F. Spectrum, you will be condoning an action harmful to the National Security of this country. Make these companies stop this enroachment on Internationally airways!!

Recspectfully submitted;

George A. Abrams, K4PAA,
